

Welcome to Dr. Robert Bard's 2020 edition of his cancer diagnostic imaging catalog. As one of the top experts and educators in the science of modern medical scanning and quantitative imaging, Dr. Bard has presented in medical conferences from over 20 countries, published countless medical texts and continues to appear in radiological science news and broadcast reports about cancer. This seminar catalog offers the top presentations from 2016-2020, sharing them in video and transcript form for easy-referencing. His latest presentation has been produced into a comprehensive video, highlighting the key points and offering the full transcript of his seminar "Image-Guided Tracking Pancreatic Cancer".

MEDICAL SEMINAR CATALOG: VIDEOS AND/OR TRANSCRIPTS 2016-2020

- Image-Guided Tracking Pancreatic Cancer | NY Cancer Resource Alliance 2020 E-conference
- Image-Guided Tracking Pancreatic Cancer | Beljanski Foundation 2020
